

new homes reimagined

quality, trust & exceptional service

N new
homes
wa

For anyone who has spent
weekend after weekend
visiting display homes....

we hear you

A new home is more than just bricks and
mortar, it's about the experience, it's about
building a home that feels like home.

New Homes WA work with you to create
a home that meets your every need.
We listen, we plan and we build a home
together with our clients.

we've been around the block

New Homes WA is one of WA's most
established family builders with a history
spanning 50 years.

From custom designed homes through to
cutting edge sustainable living, we take a
simplistic approach to design and tailor it to
you and your family's needs.

every step of the way

Building a house can be stressful so it's important you select a builder that is invested in the very best outcome for you.

At New homes WA we're with you every step of the way. From the moment you engage with us to handover – and beyond. We are always available for a chat, to help and to ensure you love the experience.

here to
help
we've got
alot of ideas
for all lot living

The lifestyle you want shouldn't be limited by the size of your block. New Homes WA brings an intelligent, fresh perspective to small lot designs that push the boundaries and pack more life, more smarts and more living into every home we build.

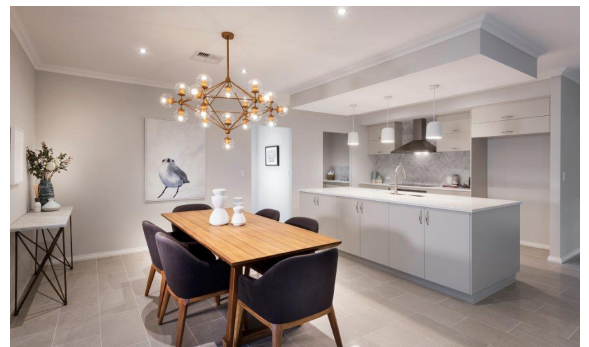

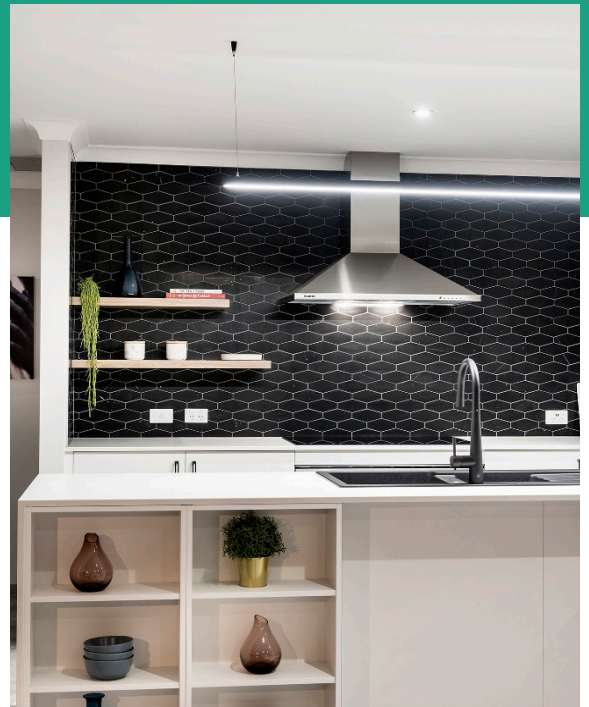

our vision

what do people really want from a new home builder?

This was the question we constantly asked ourselves. With so many options and every builder seemingly offering different versions of the same thing, we recognised the dilemma all our clients face - a choice overload together with an uncertainty of who to trust

At New Homes WA we want to make decision making easy by offering an unprecedented, one stop, new home service. Alongside our stunning, custom built homes we provide a level of support, guidance and advice unlike any other WA builder. It's a big call but we're willing to put our house on it!

As a part of the Prime Group we use over 50 years combined experience to deliver what West Australians really want from a new home builder.....

trust, availability, quality, price & exceptional service.
